

Expression of Interest Advert for the Maintenance of Air Conditioners at Exxaro Belfast Coal.

EOI Reference Number: 315319

Purpose

To identify suitable qualified and experienced service providers to perform maintenance, supply, and installation of air conditioners at the Exxaro Belfast Coal Mine.

Scope of Work

Exxaro invites suitably qualified and experienced service providers from Emakhazeni Local Municipality area to register their interest to participate in a Sourcing Event/RFQ, for the maintenance, supply, and installation of air conditioners in various areas at the Belfast Mine.

Responsibilities include the supply, installation, and maintenance of air conditioners. The services must comply with relevant HVAC industry standards and local regulations.

Supply of Air Conditioners

- Conduct a thorough assessment of the cooling and heating requirements for each building/structure.
- Recommend suitable air conditioning units (Ceiling Cassette, Inverter Split, HVAC systems) based on the assessment.
- Supply air conditioning units as per the approved specifications and requirements.

Installation of Air Conditioners

- Prepare the installation site, ensuring it meets all safety and structural requirements.
- Install air conditioning units in accordance with manufacturer guidelines and industry standards.
- Test and commission the installed units to ensure they are functioning correctly and efficiently.

Maintenance of Air Conditioners

- Ceiling Cassette Air Conditioners:
 - Regular cleaning and filter maintenance.
 - Checking for water leaks, noise, and vibration.
- HVAC Systems:
 - Comprehensive checks and cleaning of filters, coils, drain lines, compressors, and electrical systems.
 - Inspecting ducts, refrigerant levels, thermostats, and overall system performance.
- Critical Spares:
 - Provide a list of critical spares and quotations for replacements.

A detailed scope of work will be provided with the Sourcing Event/RFQ.

Special Requirements

Training and Certification:

- Technicians should complete training programs accredited by the Air Conditioning and Refrigeration Academy (ACRA) or similar institutions.

Occupational Qualifications:

- Technicians must obtain qualifications for HVAC&R, including new qualifications in ammonia, CO2, and air conditioning as per the Quality Council for Trades and Occupations (QCTO) to ensure they meet the latest industry standards.

Licensing and Registration:

- Technicians should be registered with the South African Qualification and Certification Committee for Gas (SAQCC Gas) and the South African Refrigeration and Air Conditioning Contractors Association (SARACCA) for safe handling of refrigerants.

Action Required from Respondents

Note that your company needs to be a registered Prospective Supplier or a registered Supplier in order to participate in an RFQ. If your company is not a registered Supplier or Prospective Supplier, please proceed to register as a Prospective Supplier online at <https://www.exxaro.com/suppliers/> or [Prospective Supplier Registration](#). When prompted to capture the RFQ number, insert the EOI Reference Number listed above.

All interested parties are required to complete the online questionnaire using the following link:
