Purpose

To identify qualified and experienced service providers to supply potable water at the Exxaro Belfast Coal Mine.

Scope of Work

Exxaro invites suitably qualified and experienced service providers to register their interest to participate in a Sourcing Event/RFQ, for the supply of potable water at the Belfast Mine.

Required Competencies

The service provider for the supply of potable water shall have the following competencies:

- Experience in the transportation and delivery of potable water.
- Compliance with South African National Standard (SANS 241) for drinking water quality.
- Capability to maintain and operate water bowsers.

Water Sourcing and Quality Assurance

- Source potable water from an approved central point in the Emakhazeni local community.
- Ensure the water meets the South African National Standard (SANS) 241 for drinking water quality.
- Regularly test the water quality to ensure compliance with these standards.

Transportation and Delivery

- Use water bowsers to transport potable water from the central point to the village.
- Ensure the water bowsers are clean, well-maintained, and suitable for transporting potable water.
- Develop a delivery schedule to ensure a consistent supply of water to the village.

A detailed scope of work will be provided with the Sourcing Event/RFQ.
